

LOS TUERCAS

In Valencia everybody knows to **LOS TUERCAS** and their usual impudence at his concerts. They are rockanrolling the major venues and festivals (Circuit de Rock, Rockejat ...) since 2005, sharing stages with Sidonie, Lori Meyers or La Excepcion and the songs of her two previous albums (their first EP "Piruletas" and their CD "Glamour ") have played in the radio shows of reference. So your next step had to be ... joining Flor y Nata Records. Where else?

Charming Rock and roll and contagious rhythms. **LOS TUERCAS** is one of the rock and roll style with a shameless very particular concept that mixes catchy rhythms, lyrics that tell stories of real life and a staging that goes beyond simple barrier concert to be at the border of the show.

At 2011, **LOS TUERCAS** changes from quartet to trio go and prepare a new album called like them, without more, and which remain faithful to a sound and an attitude of constant mischief, shamelessly juvenile provocation ...

To start... a "FORD ROBADO"

The songs can not be more current address issues that are on the road, "**Ford robado**", politically incorrect title if there ever has it all to be a generational anthem: "*This life is a failure, homeless and penniless, no car and no job, we will begin*" in the drinking of the best Argentine rock groups mixed with a Mick Jagger in its fullness ...; "**Nada es como tu**" is pure conformism and accelerated, with "**El Veneno de la Yoli**" the girls come into play, the "bad girls", you understand, because the "good girls" would never go the arm of a somebody as a TUERCA. In "**Barbie**" returns to surface their most scoundrel, the girl may be the prettiest of the party, but ... "*You do not like me, cute Barbie ...*". We have bad girls, alcohol as in "**Rock'n'Ron**" and we needed a game in the slot, in "**La Perla del Caribe**".

The album was produced by repeating formula for **Uve Martinez** and mastered by **Jose Maria Rosillo**. Counting on the design and photography by **Assad Kassab** (Sokolov group).

LOS TUERCAS are: **Fernando Silla**: vocals and guitar, **Carlos G. Chaparro**: vocals, bass, harmonica, and **Angel Carrion**: drums. And you will not want to see any of them dating with your sister, but you'll have a great time with their songs and concerts.
