

MyVestal Single "New Archetype"

advance your long play
"Guidelines"

Marcos Perez and Eve Reall begin in 2009 his musical project : MyVestal

Asturian & Madrid duo, born in 2009, after his first LP "MyVestal" (2010), the EP "Lucky" (2012), a digital single "Soul Keeper" (2013), now we advance what will be his new production "Guidelines" with the song "New Archetype".

Between the analog and digital world

The analog synths and Hammond again be on hand at this new single MyVestal. Arpeggios and sequences emanating from the depths to converge in great choruses. Dance and electronic, reminiscent of the 90s, and valvular sound, with impeccable vocal melodies, resulting in a powerful, strong and modern sound. Had previously been defined as "electro-vintage," without moving from the wide range of electronic rock, with instrumentations from others decades. From **Hestia Films Studios** production, a perfect blend between the analog and digital world. **New Archetype** is the card that long precedes its "Guidelines".

In the words of Eve, the singer: *"the concept that exudes this single is the need to create a new archetype of being human, material reborn obscurantism, and step forward to break ranks towards changing the worn paradigm. After exhaustion and existential ennui, the world demands something fresh and positive vitality. Awaken consciences !!"*
